Celebration of World Environmental Health Day

Poster Making Competition

Gujarat Power Engineering & Research Institute (GPRI), India has celebrated World Environmental Health Day by spreading the awareness about “Indoor & Outdoor Air Quality” amongst students and staff members. Poster Making Competition has been held for 1st year Mechanical Engineering students. The event was jointly organized by ECO Club and Civil Engineering Department, GPRI. ECO Club, GPRI is students’ club organizing various events keeping Environment Protection at the focus.

Total 11 interesting posters were prepared by the students in a team of 3. The posters were to be prepared by them in advance and were presented by the team to the jury at 2:30-4:00 p.m., 26th September. The posters were kept for an open exhibition for entire institute then after. High Volume Air Sampler and Stack Analyzer were displayed to the students and functioning of the same was discussed in detail.

On basis of the evaluation criteria, judges decided the winners for 1st, 2nd and 3rd position. Winners were awarded the Prize and Certificate in Valedictory function. All the student participants were felicitated by Participation certificates.

Overall, the event has received a wide appreciation from all the visitors and participants. We hope that it will definitely add some Δx to the health of our environment.
