IFEH PRESIDENT'S MESSAGE OF SUPPORT

To: Environmental Health Australia (Australian Institute of Environmental Health)
Attention Mr. Vic Andrich

Bush Fire Devastation in Australia

On behalf of the Board of Directors and the members of the International Federation of Environmental Health (IFEH), we are saddened by the current devastation of the bush fires in your country, the loss of lives of both human and animals and the destruction of properties and the surrounding environments.

We want to say that you are in our thoughts and prayers during this time and we feel your suffering during this time and always be aware that you are not alone in your time of needs. We hope this devastation will come to an end and the people of Australia will eventually come back to normal and put this devastation behind them.

We pray that none of our IFEH members or their families were victims of this bush fire devastation.

Finally let me say that our thoughts and prayers are with the people of Australia and pray that they can overcome this disaster and move on with their lives.

GOD BE WITH THE COMMUNITIES OF AUSTRALIA.

Dr. Selva Mudaly

President – International Federation of Environmental Health
