

IFEH President message

To:

Zimbabwe Environmental Health Association, Zimbabwe.

Disaster in Zimbabwe – tropical cyclone Idai.

On behalf of the Board of Directors and the members of the International Federation of Environmental Health, we are saddened by the recent disaster in Zimbabwe and the 5 days devastation of the tropical cyclone Idai.

We want to pay our deepest condolences to the families who lost their loved ones. We are aware that over 100 people lost their lives and this figure is expected to rise over 300. We are aware that over 15000 people were affected by this storm. The torrential rains have made the situation worse.

We pray that none of our IFEH members or their families were victims of this horrific disaster.

We want to express our deepest sympathies to the families of all the deceased and pray that God gives them the courage and strength to deal with their tragic loss. We also pray that the Almighty God showers his richest blessings upon the families that lost loved ones, and he gives them the courage and fortitude to deal with their loss.

Our thoughts and prayers are with the people of Zimbabwe and pray that they can overcome this disaster and move on with their lives.

GOD BE WITH THE COMMUNITY OF ZIMBABWE.

Dr. Selva Mudaly

President – International Federation of Environmental Health
